

SAYMA WQO Allocations Committee Report to YM 50, June 2021

The WQO Allocations Committee prepared its *proposed* 2022 disbursements of YM funds to WQOs for RM 246 last March. Due to the tight schedule for RM the proposal was sent to MMs directly for discernment along with queries about the larger framework of WQO support within SAYMA. The central issue we wished to lift up is that determinations about specific allocations and the WQOs to receive them are tasks properly belonging to MMs acting through their representatives collectively assembled for collaborative decision making in SAYMA RMs and YMs. It may then reasonably be asked what, if any, role SAYMA should have in WQO support. We hope to pursue these questions with MMs in the future.

Finally, are there one or two Friends out there willing to serve on the Allocations Committee, which is currently down to two members? The work is pretty much all in the period November through mid-March and meetings are conducted by phone and email or Zoom.

2022 WQO Allocations Committee Proposal (Criteria ranked 1-5, low to high)

1. How important is this organization to the face [public image] of Friends?
2. How are the YM and Members of MMs involved in the organization's work?
3. What is the degree to which its work fits within a social issue important to SAYMA?
4. What is the [budgetary] impact of our contribution?
